

## **Disbursement for Books and Supplies**

Books and supplies are provided upon enrollment. If a student's books are not here within 7 days of their start date, they will be provided with loaner books until they arrive, as required by the Department of Education. Other kit materials will be given to students upon the completion of their first 150 clock hours, which at that point they can service the public. Until that time, the school provides tools necessary for learning that belongs to the school.
