**Drug and Alcohol Abuse Prevention Program
Biennial Review
2013-2014**

**Author: Sharon Payton
Date: January 2015**

Trenz Beauty Academy must review its Drug and Alcohol Prevention Program once every two years to determine its effectiveness and to ensure that its sanctions are being enforced. As a part of this biennial review, Trenz Beauty Academy must determine:

1. The number of drug and alcohol related violations and fatalities that occur on the campus or as part of any of the school's activities and that are reported to campus officials; and
2. The number and type of sanctions that are imposed by the school as a result of drug and alcohol related violations and fatalities on the campus or as part of any school activities.

The effectiveness of Trenz Beauty Academy's prevention program is measured by tracking the number of drug and alcohol related disciplinary actions, treatment referrals, and incidents recorded by campus officials or other law enforcement officials.

Trenz Beauty Academy also tracks the number of students or employees attending self-help or other counseling groups related to alcohol or drug abuse programs.

During the years of 2013 and 2014, Trenz Beauty Academy did not have any drug and alcohol related violations and fatalities that occurred on the campus or as part of any of the school's activities and nothing has been reported to campus officials. Because there were not any of drug and alcohol related violations and fatalities on the campus or as part of any school activities during the years of 2013 and 2014, Trenz Beauty Academy did not impose any type of sanctions.

However, during the years of 2013 and 2014, there were two (2) students who were attending self-help or other counseling group related to alcohol or drug abuse either voluntarily or court ordered due to situations that occurred before the student was enrolled at Trenz Beauty Academy. This information was gained from students who needed to be excused from school in order to attend these sessions.

Trenz Beauty Academy's Drug and Alcohol Prevention Program proves to have been effective for the years of 2013 and 2014 due to no incidences occurring or being recorded by campus officials. No implementations of changes are needed at this time.

This report is provided to the public upon request. Requests can be made to the school's administration office either in person or in writing at 695 Wentworth Avenue, Calumet City, IL 60409, by email at trenzclasses@gmail.com, or by phone at (708) 832-0000.
